## LOCAL AND OTHERWISE.

H. Jacobson the liquor drummer spent several days here this week.  
T. J. Osborne returned this morning from a two weeks' visit in Salt Lake.  
Wm. Wheatly took a trip down to the metropolis the first of the week.  
N. P. Dooley left this morning for Desert Springs where he will meet his wife.

The ore body in the Pacific Tunnel continues to improve as work progresses.

Mrs. W. Christian and family left here Tuesday for Beaver, Utah, where they will reside in the future.

Henry Kahn came in from DeLamar Monday evening for his usual monthly interview with our merchants.

After several days of windy weather the fall indications have been felt and a severe winter is predicted.

J. Eisenmann went to DeLamar Tuesday morning on business connected with his various mining interests there.

Miss Louise Evans is now able to be around and will soon be ready to attend to her duties as teacher of the school here.

J. G. Brown was up from Panaca Monday to get the remainder of the lumber and fencing from his house recently torn down, and which is now being erected in Panaca.

District Attorney F. R. McNamee and family left last Sunday morning for their home in DeLamar. They have been visiting here for a month past.

The St. Mary's hospital established twenty years ago at Virginia City, has been closed by the sisters, and is now used as a general hospital.

A portion of the No. 5 building is being torn down, the lumber to be used at the summit mill on the new improvements to be soon made there.

Dr. M. W. Snow is located at the residence of F. W. Dickle and any one needing dental work done should call soon, as he will remain here but a few days longer.

M. Churich came from DeLamar Sunday and has commenced work on the repairing of the county jail which has been needed for some time. It will take several weeks to finish the work.

The Evening Report, published at Virginia City, Nevada, has been started again, under the management of the Report Publishing Company. The first issue reached our office this week.

The List of Taxpayers of Lincoln County was printed at this office Monday and the Assessor will have them in general circulation shortly. The list is but a few names less than that of last year.

W. J. McIntyre was an incoming passenger on this morning's Milford stage. He will remain two days and then proceed to DeLamar. He represents the Salt Lake City Soda Water Company and is out on personal and business matters combined. "Billy" finds his old stamping ground materially changed, and for the worse, but will see many old friends with whom to exchange reminiscences during his short stay.

Those in charge of the Summit will have shut down the mill and are making preparations to increase the capacity of the plant. Three new agitators to be made entirely of wood will be put up, four Frue Vanner contraptions added and the crushing capacity increased. It will take several weeks to make the new changes.

Peck Bros. of Bullionville, have ordered a new road machine which will carry four passengers at the rate of ten miles an hour over any ordinary country road. It is a gasoline machine and can be operated at a very low figure. This will beat DeLamar's fast horses when they make their flying trips across the desert.

## NEW RAILROAD TALK.

The subject of building between Milford, Utah, and Los Angeles, Cal., is again being discussed. The operation of the Union Pacific system of roads by Receivers is about to close. The prospectors purchasers propose to secure a through to the coast as speedily as possible. This is more necessary now than heretofore on account of the segregation last spring, of the Oregon Short Line from the Union Pacific management and control, and must be brought about to insure a profitable operation of the new system.

The Vanderbilts are supposed to be ready to bid in the Union Pacific at the approaching sale and are said to be already figuring on making the extension southwest from Milford, with active work to begin this year.

The route proposed will utilize the existing grade from Milford to Meadow Valley Wash, this county, whence it will proceed down the Wash to the Muddy Valley and thence southwest near the Vegas Valley to California, probably joining the Nevada Southern at Manvel.

The grade thrown up in 1890 is in good condition generally. Some work is needed to finish up the tunnels etc. in the Clover Wash. With this completed, a gap of not more than 250 miles remains for construction, which is said to be among the easiest pieces of road to build.

With this work once begun, Lincoln County will hear nothing of hard times for awhile, and with the road once completed a country, rich in mineral and agricultural resources will be thrown open to settlement and exploration.

## Fell Down a Shaft.

C. P. Turner, superintendent of the nickel mines, some forty-five miles from Lovelocks, met with a serious mishap by falling down one of the nine shafts, a distance of 75 feet last Friday.

The messenger who brought the news to Lovelock left the superintendent in an unconscious and perhaps dying condition. Medical aid was at once sent, but grave doubt is entertained about it reaching the mine in time to be of any benefit.

Superintendent Turner was the representative in Humboldt county of the Nevada Nickel syndicate, which has some promising mines at Nickel, and has a smelter on the ground. He is an able, competent man, and very popular among the business men of the county.—Elko Independent.

Judge Hartung has moved into his house on Main street.

J. O. Gelabert is tearing down several houses on Panaca Flat which will be moved and erected at Comet District.

Have your bad teeth fixed while you can procure the services of a first class dentist. Dr. Snow guarantees all work.

The farmers of Carson valley are talking of establishing a co-operative hay and grain yard in Carson, under their own management.

During this week John F. McDonnell, Secretary of the Miners' Union, will go to Randsburg, Cal., to initiate the Miners' Union at that place into the Western Federation of Miners.—Enterprise.

The fast freight line between Milford and DeLamar is to be discontinued. Arrangements have been made by which all freight will be carried by the regular Stage Co., and passenger traffic will also go to the stage company unless private conveyances are demanded. Travel is not as good as it was, and not good enough to justify the continuance of the fast freight as a regular thing.

The wave of prosperity has struck Eureka county. The Sentinel says the total valuation of property in the county this year is \$1,584,922.50, an increase over last year of \$6,135. The Board of Equalization may possibly make some reductions, but it is not likely that the total will be materially changed. The increase in valuation is due to the raise in the price of cattle, which this year have been assessed at \$12 per head instead of \$10, the valuation placed on them in 1896. The tax levy outside of town is \$2.42 as against \$2.75 last year, and the levy in Eureka is \$2.92 as against \$3.25 in 1896.

The Virginia Enterprise says: George W. Maynard, a metallurgical engineer of New York, is visiting on the Comstock. Mr. Maynard represents John W. Mackay's interest in the Silver Peak mines and will leave for Silver Peak in a few days to commence operations.

Mr. Maynard examined the properties of the P. C. Co. here and at Jack Rabbit mines in 1891 and which with ordinary facilities and market he believed would be an immense producer. The conditions however did not at that time exist but the values remain there just the same and will sometime come out. The Salt Lake smelters always paid more than the silver and lead contents of this ore on account of the lime and iron contained in the gangue, which made it a particularly desirable smelting ore.

## FROM DeLAMAR.

Charley Bosko is in town.  
Joe Eisenmann is here from the county seat.

Fall winds have had the field for the past week.

Our physicians report but two cases of fever in town.

Dr. Snow the dentist, left for Pioche the first of the week.

John Lynch has returned from a prospecting trip in State Line district.

A grand basket ball took place last night and it was a complete success.

Mrs. Fred Miller has returned to her old home in Eureka, Nevada, this week.

On Monday's stage Mrs. M. Cullom left for California to reside permanently.

The marriage bureau is a success and is gaining in membership. The officers set the first example.

Ed. Wheeze, proprietor of the Wheeze livery stable, left Monday for a month's trip through Utah.

Dr. Hagar is with us again. The Doctor has had an extended trip through some of the Western States.

Secret orders are well represented here now but the latest is a move to organize an Order of the Macabees.

The new fuel economizer at the DeLamar mill is in operation now and the saving in fuel is already noticeable.

The April Fool Company paid their employees yesterday and the amount of \$8,000 was distributed about town.

Reports from the Homestake in Cedar Wash are encouraging and it is expected that the main ledge will be encountered in a few days.

The contractors on the tank work at the DeLamar mill are working hard to keep up with the crushing department, but the Griffins are too many for them. A number of new tanks could be easily used just now.

Among the departures on Tuesday's stage was Jas. W. Monday who has resided here for some time and a member of the orchestra. Jimmy leaves many friends here who wish him success in his new place at Mercur.

The McKeon fast freight line has been stopped and the general manner P. B. McKeon was here this week settling up the business of the line. The regular stage line is well stocked and makes good time over all parts of the line.

W. C. Grover arrived from DeLamar, Idaho, coming overland with two four-horse loads of clothing and gent's furnishings. The stock of goods will be opened and displayed in the building one door above the Cosmopolitan restaurant.

J. P. Boyle who has held the position of night foreman in the DeLamar mine for several years past, left with his family Tuesday morning for Mercur, Utah, where they will locate. They leave here with the best wishes of their many friends.

Friday evening last the DeLamar Orchestra gave one of their pleasant parties in the Vieta-Purtscher hall, as a farewell to John Boyle and J. W. Monday. The attendance was was not so as to crowd the hall but those present spent a very pleasant evening.

After a shut down of a week the April Fool mill started up last Sunday morning and is now turning out the yellow metal. The mill has run steadily ever since it was first started and a week was taken for general repairs which places it in condition for another long run.

The sentimentalists who have so bemoaned the desecration of nature by the utilizing of the waterfall of Niagara for material purposes are now furious over the prediction by Lord Kelvin that before many years every drop of water in Niagara river will be used underground for mechanical purposes instead of going over the falls, but it looks now as though the prediction would prove true.—Chicago Chronicle.

A party from California has gone to look at the Lone mountain property with the idea of making an investment. The property is rich in gold and copper and will when developed, surprise many with its mineral wealth.

A number of our exchanges are amusing themselves (and others) by making up slates of the nominees to be chosen by the Silver Party State Convention next year. As a past-time this is all right, but when it comes right down to business it is all different. Some of those named for certain officers are already so defunct that they need a disinfectant to keep the general public from knowing it.—Virginia Reporter.

In the District Court of the Fourth Judicial District of the State of Nevada, within and for Lincoln County.

The State of Nevada sends Greeting to J. B. Osborne, J. C. Russell, J. H. Baker, Charles King, Gamus Pomine, C. H. Hobbs, John Doe, and Richard Roe.

You are hereby required to appear in an action commenced against you as defendants by William Wheatly and F. W. Dickle as plaintiffs, in the Fourth Judicial District Court of the State of Nevada, Lincoln County, at the town of Pioche, and answer the complaint therein, which is on file with the Clerk of said Court, within ten days after the service on you of this summons (exclusive of the day of service) if served in said County, or twenty days if served out of said County, but within the district, and in all other cases forty days, or judgment by default will be taken against you, according to the prayer of said complaint.

The said action is brought to recover judgment and decree against you, the said defendants, quieting the title of said Plaintiff to that certain mining claim situated in that known as the Green Mining District in said County of Lincoln and State of Nevada, located, known and called "Willow" Mine and Mining claim and the "Marie" mine and mining claim as situated on the "Willow" Mining claim which said mining claims the said Plaintiff claim to be the owners and in the possession of and to which you claim some interest or estate, as is alleged, adverse to them; and debarring you from asserting such or any adverse claim to said mining ground and for costs. And you are hereby notified that if you fail to appear and answer the said complaint as above required that said plaintiff will have your default entered and apply to said Court for the relief demanded in the complaint in this action.

In testimony whereof I, H. J. Goodrich, have hereunto set my hand officially and affixed the seal of said Court, this 5th day of June A. D. 1897.

H. J. GOODRICH, Clerk of the Fourth Judicial District Court.
